Guaranteed 23 Jewels \$4 Adjusted Solld 14-Karat Le GOLD

Thirty-one years ago (1881) when we started in the watch insides a 25-lew-ellest adjusted, sold 14 karat Gold Watch for less than \$150.00 could not be found in the American watch market. In those days watch movements and cases were made by band. With the cost of labor and big orofits charged by retail jewellers only men of great wealth could afford to buy a 25-lewelled, adjusted, solid 14 karat Gold Watch. To-day natomatic machinery wrinds them out nearly as fast as newspapers are printed and their actual cost at the present time is hardly believable even when you consider thousands are now made in the space of time it took them to finish a few. What we want to call your attention to is: That we offer 25-lewelled, adjusted, solid 14 karat Gold Watches at this sale for \$15.00, and if any wholesale or retail jeweller will sell you one for less than \$35.08 net anot cash, or you can find any valle with it, we will refund your \$15.00 on request. You can hardly believe leavellers charge so noith for 23- leavelled, adjusted, soild 14 karat fold Watches. Find out what this saie means to you. No mail or measurer orders filled.
